

LIST OF RESIDUE DATA EXEMPTION

Pesticide registration for the purpose of industry, public health, household, technical concentration, veterinary and agriculture commodity which is not food crop ex: ornamental do not require residue data.

Generally, the registrant/applicant has to submit residue data for the registration of a proprietary pesticide, or commodity pesticide with new recommendations intended to be used on an agricultural food commodity. Below are some cases where the submission of residue data is exempted for registration purposes.

- 1- The pesticide is applied for/at:
 - Seed treatment
 - Seedling stage
 - Preplanting stage
- 2- Any application of pesticide on oil palm plant below 2 years
- 3- Any application of pesticide on crop before flowering stage, except for systemic pesticide – evidence must be submitted to show that the application of the pesticide is required only before the flowering stage of the crop proposed
- 4- Any application of rodenticide in bait formulation

Application for residue data exemption other than cases listed above, full explanation/justification on why the pesticide residue data should be exempted for registration purpose need to be submitted to the Pesticide Board.

*If the Pesticide Board is of the opinion that the residue data is exempted for registration purposes, then the submission of residue data will be required although it is listed as above.
